

OMITTED EXERCISES 2025 (25%)

A list of your omitted exercises must be emailed to admin@atod.net.au no later than 1 week prior to your exam date. You should also present this as a written document at the start of the exam day. Your list should include the following:

- Studio Name
- Exam Plan Number
- Name of each exercise not being performed for every genre/grade

Teachers can remove up to one-quarter (25%) of exercises from the exam.

All fractions of exercises should be rounded down. E.G. If there are 17 exercises, you divide by 4 to get one-quarter, this gives you 4.25. Therefore up to 4 exercises can be omitted.

All dances must be performed.

Each dance or performance piece is counted as 1 exercise. E.G. If an exam has 15 exercises and 2 dances then the total number of exercises would be 17 and 4 can be omitted (you cannot omit a dance or performance).

At least one exercise from each section must be shown. E.G. The entire pirouettes section cannot be removed.

Classical Ballet – Unseen enchainments can be included in your omitted exercises.

All entrants in the same grade must show/omit the same exercises (even if they are split into different groups).

If you are combining with another studio you may have different omitted exercises, please therefore ensure you share your omitted lists. Whilst the students from other studio are performing an exercise you have omitted, your students should stand at the side of the exam room facing the wall.

The same amount of time will be allocated to the exam groups and therefore the exam fees will remain the same. This will give the Examiners the discretion to give students more attempts at exercises if required and take time to encourage students through the exam.

Classical Ballet

- Note: Since 2023 unseen enchainments are optional.
- Test 1 & 2: Dances & Free Expression must be shown.
- Test 3 - Gold Medal: Dances must be shown.
- Gold Star, Elementary & Intermediate: Dances and Boys Allegro / Girls Pointe must be shown (Some pointe exercises can be omitted however you cannot omit all pointe work).
